SEARCHING FOR THE CHRIST CHILD

Isn't it wonderful to feel the oncoming energy of the Birth of Christ? Moving forward, the days to follow are filled with amazing sights, sounds, and... smells! Families gather and children prepare for exciting feasts and expressions of love and happiness. At the same time, the 2022 calendar bows to a finale's countdown of another year and in anticipated celebration, Christians gather round the world to celebrate that a Savior is born.

The Christ Child is coming!

Who better to rekindle the precious joy of humanity after her breakdown of two years past? When better the seeds of change, than years past of drought filled with darkened tones and jagged turns? As a great majesty prepares to embrace us, a holy charge from the realm of heaven waits. A spiritual marvel and God-given chance for all souls on earth... the planet's consciousness and our combined visions and dreams. A Better Story apart from the dazzle and gaiety, hustle and fanfare. Far from the dizzy back and forth, and through the whirlwind of it all, comes a quiet grace with the knowledge: We are flawed. A polar reaction to a celebration and a holiday. A walk to choose or to ignore. We ask for this walk, this opportunity. We seek this blessing, this healing, this joy. We search our hearts for the Christ child. In a world that needs so much, we choose to do more. For the choice to serve and to search - changes everything.
